

## FORCE PRESSURE CONTROL ADDRESSES RECENT FALSE AND DEFAMATORY COMMUNICATIONS

**SEGUIN, TX – September 2025** – Force Pressure Control (“Force”) today issued the following statement regarding recent anonymous attempts to damage the company’s reputation:

Force Pressure Control is a business founded on the values of commitment, integrity, accountability, and mutual respect. Our word is our bond, and we do what we say. Every Force employee is committed to providing our customers with world-class service and expertise.

Recently, Force has been the victim of an anonymous, targeted campaign to damage our good name and question our ethics. Some of our customers have received anonymous texts or letters filled with untruths and innuendos. We want to assure you that we are diligently working to find the perpetrators and hold them accountable civilly and, if possible, criminally. Our employees and investors deserve nothing less, and we have assembled a legal team that is actively pursuing subpoenas and legal processes to uncover who is behind this unethical effort.

If you receive such a disparaging communication, we need your help. Please contact your Force representative or our attorneys at The Ward Law Firm (David Ward) at (281) 362-7728 or [ward@dwardlaw.com](mailto:ward@dwardlaw.com). Please preserve whatever communication you received and provide it to us for analysis. We are all part of a business community that deserves better.

On behalf of everyone at Force, thank you for your time and attention.

### How to Report Suspicious Communications

- Contact your Force representative and **The Ward Law Firm** (David Ward) at **(281) 362-7728** or [ward@dwardlaw.com](mailto:ward@dwardlaw.com).
- **Do not delete** the message; preserve screenshots, caller IDs, envelopes, and metadata where possible.
- Forward any materials to assist our investigation.

---

### About Force Pressure Control

Founded in 2019, Force Pressure Control is a leading provider of frac and flowback rental tools, well control solutions, and proprietary API-certified equipment for the energy industry. Headquartered in Seguin, Texas, Force has rapidly expanded its footprint across the Permian, Eagle Ford, Haynesville, Rockies, and Mid-Continent, supported by state-of-the-art facilities and highly trained personnel.

The company designs, manufactures, and services proprietary valve and choke technologies under API 6A and API Q1 standards, including patented innovations that deliver enhanced safety, reliability, and efficiency in extreme environments.
