

FORCE PRESSURE CONTROL COMPLETES ACQUISITION OF OSPREY ENERGY SERVICES

SEGUIN, TX – November 2024 – Force Pressure Control is pleased to announce the acquisition of Osprey Energy Services, LLC, effective November 1, 2024.

The acquisition expands Force’s service portfolio across the Eagle Ford, Permian, Haynesville, Woodford, Niobrara, and Bakken shale plays. With the addition of Osprey’s experienced personnel, Force now offers customers a broader range of wellsite services, including frac stacks and manifolds, monoline, master valves, blow-out preventers, accumulators, torque & test, greasing/lubrication, equipment transportation, flowback, well testing, mixing plants, and chemicals.

“This transaction brings together two companies with a shared commitment to safety, service quality, and customer satisfaction,” said Jacob Startz, Chief Executive Officer. “By combining our strengths, we are delivering greater value to our customers and strengthening our competitive position in the market.”

About Force Pressure Control

Founded in 2019, Force Pressure Control is a leading provider of frac and flowback rental tools, well control solutions, and proprietary API-certified equipment for the energy industry. Headquartered in Seguin, Texas, Force has rapidly expanded its footprint across the Permian, Eagle Ford, Haynesville, Rockies, and Mid-Continent, supported by state-of-the-art facilities and highly trained personnel.

The company designs, manufactures, and services proprietary valve and choke technologies under API 6A and API Q1 standards, including patented innovations that deliver enhanced safety, reliability, and efficiency in extreme environments.
